

Monthly Public Lecture Series

The Monthly Public Lecture is a programme organized by the All India Institute of Speech and Hearing on a regular basis (once a month) to the general public from Mysore and other states visiting AIISH for educational purpose. The target group varies from regular school teachers, students, teacher trainees, nurses, social activists and grass root level workers. The programme is undertaken with the main objectives of orienting and providing the participants about an overview of the functioning of the institute, the types of services provided, and types of courses offered. Along with the general information, disability specific information like voice care, classroom management of children with special needs, hearing impairment and its management and many more topics of interest on identification and management of children and people with communication disorder is covered. A team of experts including Audiologist, Speech–Language pathologist, special educator, social worker and public and information officer is involved in the orientation programme. The lecture is followed by AIISH tour to various departments of the institute. There is no fees charged for the programme and it is a need based programme as per the availability of the participants. The timing for the programme is between 9.30 am to 1.00 pm on the scheduled day. For the year 2019-2020, approximately 950 participants got oriented about different communication disorders, causes, prevention and different activities of the institute. Among the people got oriented 58% of the participants that is 528 participants are B.Ed., trainees, and 42 % of the participants are from different backgrounds like Nursing, Psychology, Criminology, Engineering and General public.

Interested participants may send their request to directoraiish@gmail.com. They will be intimated about the schedule for the monthly public lecture.
