APPROVED**

About AIISH

The All India Institute of Speech and Hearing (AIISH) is an autonomous Institute under the Ministry of Health and Family Welfare. The objectives of the institute are manpower development in the area of speech, language, hearing and special education, conducting research in the core areas, providing rehabilitation services to persons with communication disorders, and public education to facilitate prevention and early identification of communication disorders.

About Workshop

Dance/Movement Therapy (DMT) is also known as Creative Movement Therapy. It is a psychotherapeutic framework that works with the mind-body connection to use personal movement language and dance for the health and wellness of an individual's physical, emotional, cognitive, social and behavioral aspects. DMT is an alternative therapy through personal body movement. This discipline uses expressive movement & dance as a vehicle, through which people can engage in the process of personal integration and growth. Keeping the same in mind, this hands-on workshop has been planned to know about the effects of movement therapy for children with communication disorder.

Objective

To familiarize rehabilitation professionals/ students/ caregivers of children with special needs with the latest developments in the alternative therapies
